Montgomery County Community College
ACC 230
Cost Accounting
3-3-0

COURSE DESCRIPTION:
Students study cost management systems including job costing, process costing and activity based costing. Students learn to use these systems to manage the cost of customers, suppliers, capacity, quality, and the allocation of service department and joint costs. Students study management control systems including performance measurement, transfer pricing, and variance analysis. These analyses are applied to support the overall business strategy.

PREREQUISITE(S):
ACC 112 – Accounting Principles II with a minimum grade of “C” may be substituted or
ACC 116 – Managerial Accounting with a minimum grade of “C”

CO-REQUISITE(S):
None

Upon successful completion of this course, the student will be able to:
